

ANUROOPA PV

Full-Stack Developer (React.js | Angular | Node.js)

anukalpana2003@gmail.com | +91-9500683824 | [linkedin.com/in/anuroopa-pv](https://www.linkedin.com/in/anuroopa-pv) | Chennai, Tamil Nadu, India

PROFESSIONAL SUMMARY

Full-Stack Developer with 1 year of professional experience building secure, scalable web applications for Government of Tamil Nadu portals. Proficient in React.js, Angular, and Next.js on the frontend, and Node.js, Django, and FastAPI on the backend, with working knowledge of MySQL, PostgreSQL, and MongoDB. Comfortable with Git/GitHub-based version control workflows and basic Docker containerization. Known for translating complex requirements into clean, maintainable, and localized user interfaces.

TECHNICAL SKILLS

Frontend: React.js, Angular, Next.js, HTML5, CSS3, JavaScript, TypeScript

Backend: Node.js, Django, FastAPI, Python, Java

Database: MySQL, PostgreSQL, MongoDB (Basic)

Tools & Technologies: Git, GitHub, Docker (Basic), REST APIs, JWT Authentication, Postman

WORK EXPERIENCE

Junior Developer | TANSAM (Tamil Nadu Skill Development Corporation), TIDEL Park, Chennai | 1 Year

Project 1: HLC-USR — Government of Tamil Nadu Portal (Angular, TypeScript, HTML, CSS, i18n)

- Developed frontend features for the HLC-USR government web portal using Angular, improving usability for end users.
- Implemented English-to-Tamil localization using Angular i18n, enabling accurate, accessible access for Tamil-speaking users.
- Collaborated with senior developers to integrate frontend components with backend REST APIs.

Project 2: DPH-LMS — Government Learning Management System (React.js, Node.js, MySQL)

- Built and maintained a full-stack Learning Management System for the Government of Tamil Nadu using React.js and Node.js.
- Designed and implemented RESTful APIs handling authentication, authorization, and core business logic.
- Secured application access with Bearer Token authentication and role-based authorization.
- Designed and optimized MySQL database schemas, queries, and CRUD operations for improved performance.
- Trained and optimized a CNN model for gesture classification, achieving high classification accuracy.
- Used Git/GitHub for version control and collaborative development across the team.

Front-End Developer Intern | DLF Photon, Chennai | 3 Months

- Built a Key Management Report System in Angular 18 to track and assign keys across multiple locations.
- Implemented advanced filtering, dynamic dropdowns, sorting, and autocomplete features for a responsive UI.
- Integrated Java-based backend APIs to dynamically fetch and display real-time data, optimizing data handling and user interactions.

ACADEMIC PROJECTS

Movie Recommendation System | Python, Machine Learning, Collaborative Filtering

- Built a Python-based movie recommendation engine using collaborative and content-based filtering to generate personalized suggestions from user preference patterns.

Hand Gesture Recognition System | Python, OpenCV, CNN, TensorFlow

- Developed a real-time hand gesture recognition system using OpenCV for tracking and a CNN model for gesture classification.

- Built a gesture-to-voice conversion feature delivering audio feedback in three languages.

INTERNSHIPS

- **MSME Internship** — Gained hands-on experience in Python programming, problem-solving, and software development practices.
- **TechnoHacks EduTech** — Completed three coding tasks in Python, applying algorithm design and efficient coding practices in a team setting.

EDUCATION

B.Tech in Artificial Intelligence & Data Science | Panimalar Institute of Technology, Chennai 2024

CGPA: 8.56

Higher Secondary | Sri Kalaimagal Vidhya Mandir Higher Secondary School, Chennai 2020

Percentage: 86.7%

Matriculation | St. Britto Matriculation School, Madurai 2018

Percentage: 93.6%

CERTIFICATIONS

- Corizo — Python Programming & Forecasting Analysis Program
- Internshala — Python Programming
- Pantech Solutions — Data Analytics (One-Week Internship)
- Great Learning — Basics of Data Science

LANGUAGES

English (Fluent) | Tamil (Native)
